

COLORADO RIVER

LITTLE GORE CANYON (1 - 4 days)
23 to 65 miles Class I to Class III

Run the Colorado River near its source. With its headwater, just a few miles upstream among the mountains of Rocky Mountain National Park, this is one of the first boat able sections of the river. Little Gore Canyon features clear water and mild yet exciting whitewater that can be enjoyed in rafts, kayaks, canoes and inflatable kayaks. This is an excellent trip for the entire family. The put in point is an easy three-hour drive west of Denver near Kremmling, Colorado. This proximity to a large metropolitan area and airport makes this trip one of the top choices for beginners and old hands alike looking for a ride on the upper sections of the mighty Colorado river. This is one of the west's major rivers providing the drainage system for 1/2 of the continental United States over its 1,400-mile length. These upper sections also offer decent trout fishing for those that would like to bring a pole along Colo.fishing licenses required.

GORE CANYON (1 day)

Extreme Whitewater! Class V+

Gore Canyon above the Little Gore section is a unique run for very adventuresome and advanced boaters. Dvorak's requires specific dates in late summer only. Check out and we also require level 5-6 experience levels by participants and the circumstances for running this section will depend on water levels.

SEASON

This section of the Colorado River is boat able May through October (1 - 4 day trips). We have found the highest water levels are in late May - early June but offer excellent rafting and kayaking trips from June through September. July and August are very warm and this lends itself to river activity at its best.

FLOAT NOTES

These float notes will help you prepare for your river trip. There is information on everything from travel and lodging arrangements, typical weather and menus to cancellation and refund policies. If you have any questions that aren't answered in these float notes, give us a call. When reading these notes, it is helpful to have a road map of Utah and Colorado nearby.

PERMITS

Outfitting since 1969

We operate under special use permit from the Bureau of Land Management, Kremmling, Colorado and the White River National Forest, Eagle, Co. We are Colorado's first licensed outfitter, licensed by Colorado's Division of Parks and Outdoor Recreation. All our permits and licenses are your assurance that Dvorak Expeditions is legally operating on the river and that our guides, past performance and qualifications have met detailed requirements and more.

GUIDES

Our guides are experienced men and women skilled at handling their craft. They all have current first aid, CPR and Swift Water Rescue training and have fulfilled guide qualification requirements in the states of Colorado, Utah, Texas and New Mexico. Trip Leaders have thousands of river miles of experience on all classes of rivers including all those Dvorak Expeditions run.

YOUR HEALTH

Our river trips are not strenuous, but they are a dramatic change in routine for most people. Although the trip is relaxing, the area is remote, so you should be in relatively good health. Please let us know when you return the release form if you have any health problems or concerns. If you have dietary restrictions, we'll gladly accommodate your needs with sufficient notice.

CAMPING

Campsites on the Colorado River are limited and vary from small to spacious. Most have interesting side canyon hikes nearby and are well kept as wilderness. Minimum-impact camping practices have enhanced these sites and you'll see few reminders other than foot prints of previous visitors. Parts of the Little Gore Canyon are the route of the Amtrak Railroad and you will certainly notice the interest from passengers as they fly by your floating boats during the trip.

FISHING

We also set up custom trout fishing trips in Colorado on some of the best trout rivers in the U.S. (Request more information on these trips). As the trip passes through both Colorado and Utah, you need licenses for both States or you can choose to fish only in the State you are licensed for.

CARE OF THE ENVIRONMENT

To protect the river, we use minimum impact camping techniques carrying out all trash and human waste, etc. The guides will instruct you in simple procedures that minimize the impact our group has on the canyon and we request your cooperation.

FOOD

All on-river meals are provided, beginning with lunch the first day and ending with lunch the last day. The food is fresh and hearty and the guides will prepare it for you while you enjoy the homey atmosphere generated around each river camp. You can set up your tent or go for an evening walk, relax, read, or join the guides in the kitchen if you so desire.

A typical five day menu may include as a main course BBQ Steak, Baked Fish, Pork chops and dumplings, chicken enchiladas, seafood spaghetti, cashew chicken Chinese, Teriyaki Chicken, Mexican chili, combination entrees, fresh vegetables and salads, Dutch-oven desserts or breads, hors d'oeuvres, fresh fruits, fruit juices, coffee, tea and a complimentary glass of wine with dinner.

Lunches are buffet style with a wide variety of salads, sandwiches, fruit, cheeses, sliced meats, nuts and juices or sodas.

Breakfast includes fresh fruit juice, eggs in all styles, special pancakes, French toast, melons, fruit, cereals with milk, sausage, bacon, coffee, tea or hot chocolate. ***We can accommodate special diets with notice and almost always the menu suits the vegetarian.***

Though we carry ample supplies of juices, coffee, tea and hot chocolate we encourage you to bring extra soda, beer wine or other beverages you may prefer. You can arrange for us to pick up specific beverages for you prior to the trip or you can stock up in Vernal before we head to the river. Any liquids you bring must be in unbreakable containers and limited to one case per person.

ALCOHOL

You're welcome to bring alcohol if it is in unbreakable containers. **Discretion in alcohol consumption during whitewater days is strongly advised.** If you would like us to pick up a particular beer and bring it to the river, please advise and payment can be made for your purchase at the river put-in with your Trip Leader.

WEATHER

In April and May, the weather can vary from day time highs in the 60's to 70's and night time lows in the 30's, 40's to the odd snow storm. These storms usually pass through in 24 - 36 hours and then the weather fines again for the rest of the trip. June and July the day time temperatures move up to the 75 - 90's with night time lows in the high 45 - 60's. It is unusual for it to rain during this season but the rains that do come periodically can be substantial. There is a bug season on the Yampa River some years and for this reason we advise tents with screens to assure a peaceful night's sleep for all.
